

about

Software engineer with 8+ years of experience building platforms (fintech and SaaS 5+), from backend (Node, Postgres, APIs) to frontend (React, Next.js) and UX/UI.

Comfortable leading teams and owning production systems (testing, metrics, on-call).

Background in design gives me a strong product and usability mindset. I've enjoyed shaping the product roadmap and building strong relationships across functions, but my real passion is being hands-on where I can dig into the code.

Check out my "[About me](#)" for more info!

skills

Languages & Frameworks:

TypeScript, JavaScript, Go, Node.js (Express/Nest), React (Next.js), GraphQL, REST.

Databases: PostgreSQL, MongoDB, MySQL.

Infra & Cloud: AWS, GCP.

work experience

SOLO

Madrid, Spain. Remote
Ene 2025 - present

Lead Product Engineer

- One of three engineers shaping the product from scratch; leading frontend/backend development with React, Go, and AWS
- Balance product scope with technical feasibility, coordinating design, PM, and engineering
- Introduced scalable practices: reusable components, CI/CD, metrics & on-call rotation

Capchase

Madrid, Spain. Remote
Dec 2020 - Dec 2024

Software Engineer · Tech Lead · Tech Manager

- Employee #10 at a fast-growing company nominated in 2021 as a potential Spanish unicorn.
- Scaled engineering from 10 → 100+ while shipping fintech features (Grow, Earn, Lending Infra, Pay)
- As **IC Software Engineer**: worked across products, handling everything from frontend to backend development & UX/UI implementation.
- As **Tech Lead**: led tech initiatives for the main platform products— Grow, Earn, and Lending Infra— as a principal engineer and key decision-maker, acting as the go-to person across departments.
- As **Tech Manager**: managed two teams, Lending Infra (3 members) and Pay (7 members). Drove BBVA integration, aligned product/engineering roadmap.

Bnext

Madrid, Spain. Remote
Sep 2019 - Dec 2020

Backend Engineer

- At Core Banking System Team; built banking core services (cards lifecycle, KYC/AML onboarding, third party gateways) and REST microservices
- Improved monitoring/logging of high-volume flows

BinPar Digital Ignition

Madrid, Spain
Mar 2019 - Sep 2019

Fullstack developer

- Delivered e-commerce and marketing platforms; improved SEO & analytics
- Introduced responsive UI & accessibility best practices

GING UPM

Polytechnic University
Madrid, Spain
Sep 2017 - Mar 2019

Frontend developer and UX/UI designer

- Designed & implemented UI for academic web apps, bridging research + real-world UX
- Created high-fidelity prototypes and responsive web UIs

Early Career

Madrid, Spain
2016 - 2017

Graphic/Web Design

- Branding, typography, and digital graphics (Barfutura, Derepente Madrid)
